Golden Sanctuary Assisted Living

Where Heart Meets Home

By Kathy Elliott

Nestled in Richmond's West End, Golden Sanctuary Assisted Living is redefining what assisted living can be. As the first luxury residential assisted living home in the Richmond area, Golden Sanctuary offers an intimate, family-style setting that blends exceptional care with the comfort and warmth of home.

Founded by Amanda Roberts, a passionate advocate for dignified senior care, Golden Sanctuary was created from a deeply personal mission—to provide a space where residents receive not only professional support but also genuine love, attention, and community.

"At Golden Sanctuary, we believe aging should be celebrated, not managed," says Roberts. "Our goal is to provide a home that feels peaceful, uplifting, and truly centered on the heart."

Amanda was inspired to create Golden Sanctuary from her own experience seeking care for a loved one. "When looking for options, there was a huge gap between what I wanted and what was available," she shares. "So I created what I wanted—with not only the resident in mind, but also the families of those residents. Caring for a loved one can be all-consuming, and my goal is to create a space that relieves that burden for caregivers."

From the moment you step inside, it's clear this is no ordinary assisted living environment.

Each suite is thoughtfully designed to evoke both elegance and ease, featuring stylish décor and all the comforts of home. Residents enjoy chef inspired home cooked meals, personalized wellness care, and engaging daily activities—all within a setting that feels more like a boutique retreat than a care facility.

"With a low 4:1 resident-to-caregiver ratio, Golden Sanctuary ensures individualized attention and genuine relationships." — Amanda Roberts, Owner & Assisted Living Expert.

That commitment to individualized care allows the dedicated team to truly know each resident—anticipating needs, honoring preferences, and fostering independence, joy, and purpose in everyday living.

Golden Sanctuary's holistic philosophy extends beyond physical wellbeing—it embraces emotional and spiritual nourishment too. From

peaceful outdoor spaces and family-style dining to creative enrichment programs, every detail reflects a belief that every stage of life deserves beauty, connection, and celebration.

Amenities include all private rooms, an in-house salon station, therapy garden, paved walking path, professional menu planning with a dietician's signature, a stunning art gallery of original oil paintings, and a robust, person-centered activity schedule with an interactive hub.

Families and potential residents can now experience the warmth of Golden Sanctuary through an interactive virtual tour, accessible via the QR code below or at GoldenSanctuaryLiving.com.

For those seeking the perfect balance of luxury and love, Golden Sanctuary truly lives up to its name—a Sanctuary where heart meets home.
